

## 2015

How far through the course we reached at the end of lectures:

1. Part way through Example 2.
2. Finished part about Cauchy RVs.
3. Finished Example 5.
4. Finished part about Gamma RVs.
5. Finished section on R, brief intro to transformations of univariate distributions.
6. Transformations, brief intro to multivariate distributions.
7. Up to Example 11.
8. Finished Example 13.
9. Got up to the discussion of the Jacobian.
10. Finished Example 18.
11. Up to the start of bit about covariance matrices.
12. Finished Example 21.
13. Up to contours of general MVN.
14. Up to (but not including any of) Example 25.
15. Halfway through Example 28.
16. Up to but not including Example 33.
17. Finished Example 35.
18. Part way through Example 37.
19. Part way through Example 39.
20. Finished second case study.
21. Third case study, plus Q24 from exercise sheets.
22. Qs 19, 26 and part of 40/41 from the exercise sheets.
